

Tender Opportunity	
Organisation	Apley Farms Partnership t/a Apley Farm Shop
Brief background information on organisation	Apley Farm Shop is located between Telford & Bridgnorth on the A442. It provides a Farm Shop with Deli & Butchers, Café & Playbarn A recent energy review has identified an opportunity to reduce reliance on Grid Electricity by adding additional Solar panels & battery storage
Information on the Tender Opportunity	Apley Farm Shop (AFS) already has two banks of Solar panels with a 60Kw capacity. As we have a lot of freezer & refrigeration capacity we use electricity 365 days a year, 7 days a week, 24 hours a day. That usage is particularly high in the summer when more cooling is required to cope with summer heat. Consequently our electricity usage is particularly well suited to solar energy. The tender is to provide an additional solar capacity of circa 30 - 40kw together with a 14Kw Li-Ion Battery storage facility.
Responses to the tender should include	All costs of design, supply, installation, connection to existing services & commissioning. For the avoidance of doubt all costs includes any labour, materials & plant required to carry out the installation in addition to the equipment itself. Proposals must also include a full spec of any plant installed Businesses submitting a tender will need to provide evidence/examples of at least 3 similar installations they have completed in the past 3 years. Site visits are available & can be arranged by contacting the project manager below
Selection Criteria	The project will be awarded to the most cost effective tender that meets all the requirements & can be delivered within the planned timescales
Payment Terms	To be agreed – include in the tender. Tenders that require all or substantially all of the costs to be paid in advance of the work being started will not be acceptable. Final payment will be made with 4 weeks of the completion of the project to our satisfaction
Closing Date	Completed tenders to be received no later than midday on 1 st November 2025. Work must be completed by the end of December 2025. Email tenders are acceptable
